

Calling For Backup

A personal data backup plan.

Matthew Orr
2015-10-09

Who?

Who should have a backup routine?

Why?

Why do I need a backup routine?

3rd Party Services

I've got a service for that

- Google Docs
- Dropbox
- iTunes

Media

What should I use to backup my stuff?

Diversify

The more the merrier.

Location

Where do I put it?

Disconnected

Go off-grid to save the planet, and yourself.

Encryption

Leave something to the imagination.

Trusting The Cloud

How well do you actually know Zeus?

Schedule

Don't even trust yourself.

Bit Rot

No good deed goes unpunished.

Restoration

It's not a backup until you've tested it.

Conclusion

Any backup is better than no backup.
